

# TRACK-TRUCK

## 7 - 22 TONNE TRACK-TRUCK MOUNTED CPT RIG

The Track-Truck provides the versatility of having both a small tracked rig, for those hard to get to areas, and the pushing capacity of a 22 tonne truck rig on site at the one time.

### SPECIFICATIONS

Overall Dimensions	Track Rig: travelling - 2.83m x 1.75m x 2.6 (L x W x H) probing (H) - 3.1m <i>OR</i> 2.6m using a 1/2m stroke Truck Rig: travelling - 10.2m x 2.5m x 3.9m (L x W x H) probing (H) – 4.4m
Gross Weight	Track Rig: 7 tonne Truck Rig: 22 tonne
Ground Bearing Capacity	Track: Rig: 0.60 kg/cm <sup>2</sup> (60kPa / 8.7psi)
Speed (Low/High)	Track Rig: 4km/h on level ground
Grade ability	60%
Engine	Hatz Silent Diesel
Fuel Tank	80 L (Diesel)
Drive System	Remote Control
Tracks	300mm wide rubber tracks
Leveling Jacks	1.2m stroke (300mm lift from ground)

### EQUIPMENT / FEATURES

Other Equipment / Features	2.4m x 1.2m Plastic Bog Boards 2 x 9kg ABE Fire extinguisher Air conditioned work cabin and drive cabin Electric Winch Lifting lugs for crane lift into site location Track Rig can be dyna-bolted to concrete surface for additional reaction weight <b>NEW:</b> a second position on the tray allows for greater (truck) pushing capacity than before
----------------------------	---

### SERVICES

Geotechnical Services provided	CPT, CPTu, SCPT, SCPTu (5, 10, & 15 tonne cones) DMT, SDMT CPT casing for additional rod support Vane Shear Testing (Electronically driven) Vibrating Wire Installation Water Sampling; Standpipe Installation (20mm and 32mm)
